Safetec's purpose

We add value to our clients by developing and providing solutions that safeguard life, assets, and the environment

Safetec's Health, Safety, Security, Sustainability and Quality (HSSSQ) Policy

"We will respond to the needs of our clients and the public by delivering quality service in support of our Purpose while providing for the safety of life and property and the preservation of the environment.

We are committed to continually improving the effectiveness of our HSSSQ performance and management system with the goal of preventing injury, ill health, and pollution.

We comply with applicable legal and regulatory requirements as well as other requirements to which Safetec subscribes relating to HSSSQ aspects, objectives, and targets."

The quality objectives in Safetec are based on this policy.
