

ENVIRONMENTAL AND QUALITY POLICY

The PREFABRI Management, aware of the importance of respecting the environment and its relevance for the company in satisfying the needs and expectations of customers and other important stakeholders, sets in motion the necessary resources to meet in the course of all its activities, from sales, lets, to prefabricated modular construction assembly and installation – prefabricated modules and porta-cabins, containers, fencing, portable toilet and shower modules, urban street furniture and carports – the objectives set forth herein.

To this end, an Integrated Environmental and Quality System has been established in accordance with UNE-EN-ISO 9001 and UNE-EN-ISO 14001 standards providing the framework of this Environmental and Quality Policy and based on the following principles:

- Quality and the Environmental are strategic elements for the operation of the business.
- There is a firm commitment that in the undertaking our activities we comply with the established legal and regulatory requirements, as well as with other requirements that the company subscribes related to the environment, striving, when and wherever possible, to meet and surpass these requirements.
- We are committed to understanding both present and future needs of our customers and other relevant stakeholders in order to not only meet their demands but exceed in every aspect their expectations.
- We undertake to plan our activities so that these are environmentally friendly, preventing pollution and waste, favouring circular economies and all aspects to enhance a sustainable engagement with the environment.
- We shall strive to minimise in every aspect the environmental impact of all of our activities, focusing in particular on the use of sustainable resources, measures to mitigate climate change and waste management, especially those harmful for the environment.
- We are firmly committed to continually improve the effectiveness of this Integrated System by encouraging environmental awareness and best practice amongst all relevant stakeholders.
- This Policy is made public to all staff of the organisation as well as agents, contractors, subcontractors, suppliers and customers establishing an open channel of communication available for all relevant stakeholders.

The PREFABRI Management undertakes that this Policy and the Environmental and Quality System that it develops is properly comprehended, implemented and updated at all levels of the organisation.
